DESCRIPTION: Inhuman is Book 5 in the bestselling, award-winning, science fiction smash hit phenomenon, Post-Human series. This 400-plus pages, 109k word epic science fiction adventure story (twice as long as any other individual book in the series) readers will get to rejoin all of the characters they fell in love with along the way in the previous 4 books. Inhuman not only ties the first four books together, it

also broadens the mystery, introduces a new villain, one that has been lurking in the background throughout, and that will trump any villain in the history of suspense literature, film, or science fiction. V-SINN is its name, and, and in this epic thriller, it may just be too much for the post-humans to handle. Inhuman is to the Post-Human science fiction series as The Empire Strikes Back was to Star Wars--the middle act when revelations emerge, old sins come back to haunt, and the mysterious journey of the heroes that readers have fallen in love with deepens, darkens, and entertains to a whole new level. Post-Human fans, science fiction fans, and fans of thriller, action, suspense and adventure fiction will be not be disappointed with this epic middle act! Enjoy!
