Description :

Prsentation de l'diteurIxchel is a lonely veterinarian fleeing from her past. Finn is a were-jaguar hunting for his future.It starts as a classic case of boy-meets-girl, boy-holds-girl-up-at-knife-point, boy-and-girl-fall-in-love. But what should be a honeymoon-like jaunt through the ruins of pre-Columbian Mexico turns into an action-packed chase through moonlit forests and across crumbling pyramids. In the end, each member of the unlikely pair must make a decision that will change their lives forever. And if the two don't learn to work together, they'll soon lose the game that has turned into a struggle for survival.Prsentation de l'diteurIxchel is a lonely veterinarian fleeing from her past. Biographie de l'auteur Aimee Easterling has been spoiled by four dogs, has spoiled six cats, and has largely been ignored by two guinea pigs, four turtles, a cockatiel, and a slew of fish during her thirty-some year life. Studying biology and working as a naturalist have both informed her writing, but she's quite willing to let reality slide in favor of a good story. When not writing, she loves to read and always keeps books by Robin McKinley, Patricia Briggs, and Elizabeth Peters on her shelf. She is currently hard at work writing her next novel.
